

# ***RATIOS PLUS***

## **Features Preview**

June 15, 2007

This information will provide you with a comprehensive overview of the features included in Ratios Plus.

If you have specific questions about a feature or need additional information, we encourage you to call Pro-Ware, LLC at 402.861.8800 or email us at [info@proware-cpa.com](mailto:info@proware-cpa.com).

### **What is Ratios Plus?**

Ratios Plus, or R+ for short, is a tool to help create and maintain financial ratios and accounting data for clients and companies that you will setup in the program. Ratios Plus will create Activity, Liquidity, Profitability, and Debt and Capital Structure ratios from accounting data that you provide. In addition, you can select as many (or as few) ratios for which to enter and print data based on the needs of your company. Once you enter the accounting data for your company, you can then print reports to compare specific ratios or accounting data over time. You can even create your own customized ratios using the User-defined Ratio Wizard. Finally, you can chart ratio and accounting data with an easy-to-use, multifunctional Chart Wizard. Compare Ratios Plus to any other financial ratio software and you will see that Ratios Plus is far more flexible, inexpensive, and easy-to-use.

### **Features**

The following are some of the most significant features you will find in Ratios Plus:

- Create and maintain accounting data and ratios for an unlimited number of companies
- For each company or client enter data for as many as 10 prior years for comparison and charting
- Compare and print ratio and accounting data on an annual basis for up to 10 years
- Compare and print monthly ratio and accounting data on a monthly basis for up to 10 years
- Print detailed, comparative, or summary information for any ratios
- Graph ratios and accounting data using a Chart Wizard

Ratios Plus will become indispensable as you begin to utilize the many customizable features for your clients. You can quickly enter accounting information to chart a specific ratio over time or print a detailed information report to compare ratios for up to 10 years. Monthly information can also be easily compared and charted to discover trends in sales, accounts receivable, current liabilities, etc. within a given year. Data can be entered on a monthly or annual basis for up to 10 prior years. Printing and charting the results is also easy and flexible. Once you see how easy and intuitive Ratios Plus is to use, you will never use another financial ratio program.

Try R+ now and you will easily see the benefits. It will save you time and money, giving you the most professional results for your clients or for your own company!
